INSTRUCTIONS

Marine Terminal Operators or Taxpayers With Direct Pay Certificates

Enter the total number of barrels of crude oil or petroleum products first received in Washington from a waterborne vessel or barge on which you are paying the tax this month. Multiply the barrels received by the tax rate shown to get the amount of tax.

Credits for Export

If you exported crude oil or petroleum products on which you or a previous owner has already paid this tax, enter the number of such barrels on line 2 and/or line 3 as applicable. In the next column, record the amount of the tax that had been previously paid on these barrels.

Credits for Consumption or Manufacturing Component

On line 4, enter the number of barrels of previously taxed oil or petroleum product on which you used as a consumer for a purpose other than as a fuel, or you used as a component or ingredient in the manufacture of an item which is not a fuel. In the next column, record the amount of tax that had been previously paid on those barrels.

Credit Return

If the result of your tax due calculation is a credit, we will send you a credit notice. Credit notices may be used to offset future oil spill tax liabilities, or you may request a refund.

Payment

Make your check or money order payable to the Washington State Department of Revenue and mail to the Washington State Department of Revenue, PO Box 47464, Olympia WA 98504-7464.
